

SECTION A: WEBSITE PLANNING & DOCUMENTATION

1. Website Specifications

a. Website Objective & Goals

The website to be developed is for a gaming equipment company called **Luxinations**. The company specializes in the sale of a wide range of gaming products including gaming PCs, consoles, accessories, and peripherals.

The main objective of the website is to:

- Provide an online platform for showcasing and selling gaming equipment
- Deliver detailed and accurate product information to customers
- Create an engaging and visually appealing experience for gamers

The goals of the website include:

- Increasing product visibility and online sales
- Building a strong brand presence in the gaming market
- Providing a smooth and user-friendly browsing experience
- Encouraging customer interaction through feedback and contact features

b. Target Audience

- Age: 15 – 40 years
- Gender: All genders
- Location: Botswana and international online users
- Occupation: Students, gamers, streamers, IT enthusiasts

Technical Aptitude:

- Moderate to high computer literacy
- Familiar with gaming platforms and online shopping
- Comfortable navigating modern websites and digital interfaces

c. Type of Website

The website is an **E-commerce gaming website**.

It will include:

- Product catalog (gaming PCs, consoles, accessories)
- Informational pages (About, Contact)
- A feedback page with a form
- Promotional banners and featured products

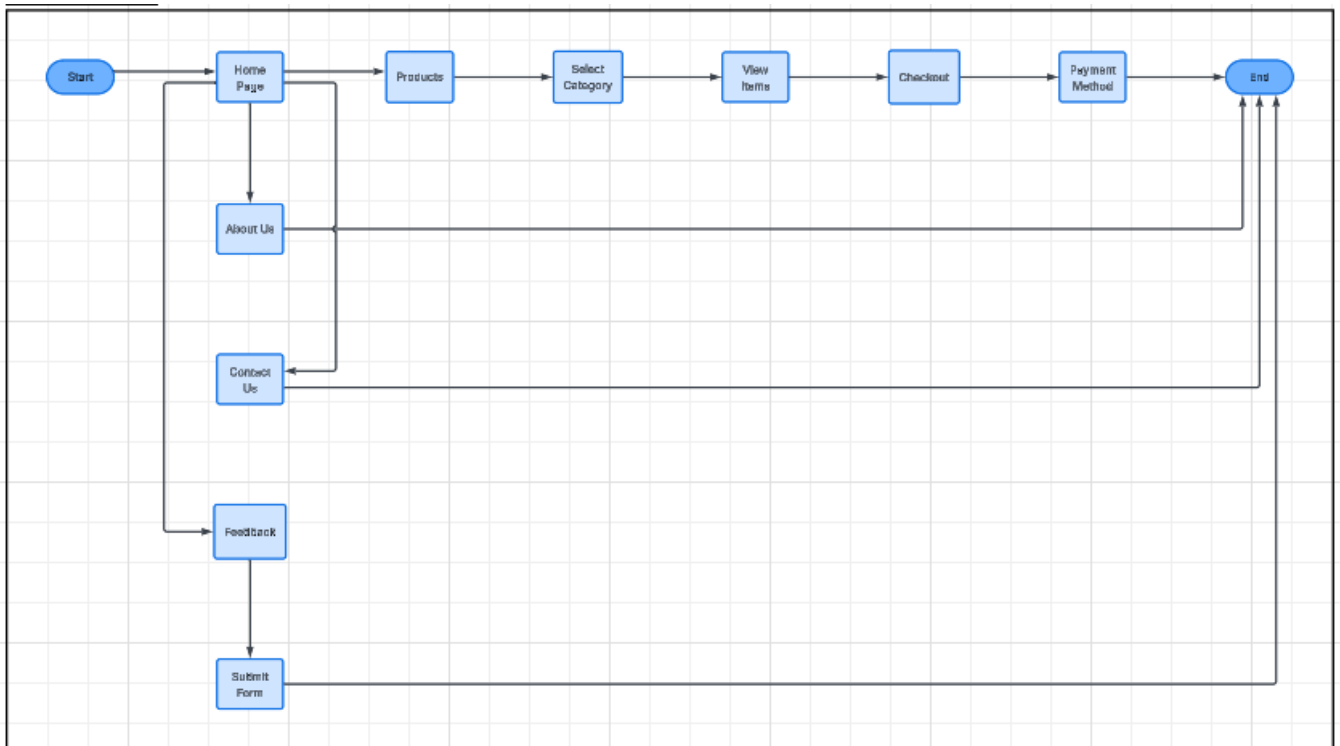

Navigation Structure

- The **Home page** serves as the main entry point
- A **navigation bar** will appear on all pages
- Users can easily move between pages in **3 clicks or less**
- Dropdown menus will be used under “Products” for categories

Content Organization

- Products are grouped into logical categories:
 - Gaming PCs
 - Consoles
 - Accessories
 - Peripherals
- Each category will display related items with images and descriptions
- Important information such as contact details and feedback forms are placed in separate dedicated pages

SITE MAP

A cart will be included to the website for use of user storage of desired items.
All payment methods will be accepted from bank cards to cryptocurrency.

3. Technical Brief

Technologies Used

- **HTML5**
Used to structure the content of the website (pages, headings, forms, etc.)
- **CSS3**
Used to style the website (colors, layout, fonts, responsiveness)
- **JavaScript**
Used for interactivity such as form validation and dynamic elements
- **Bootstrap Framework**
Used to create a responsive design that works on different screen sizes

Software Tools

- **Visual Studio Code (VS Code)**
Used for writing and editing code
- **GitHub**
Used for version control and storing the website files
- **GitHub Pages**
Used for hosting and publishing the website online

Graphics & Design Tools

- **Canva / GIMP**
Used for creating:
 - Logos
 - Banners
 - Product images
 - Website graphics

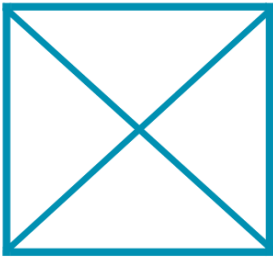

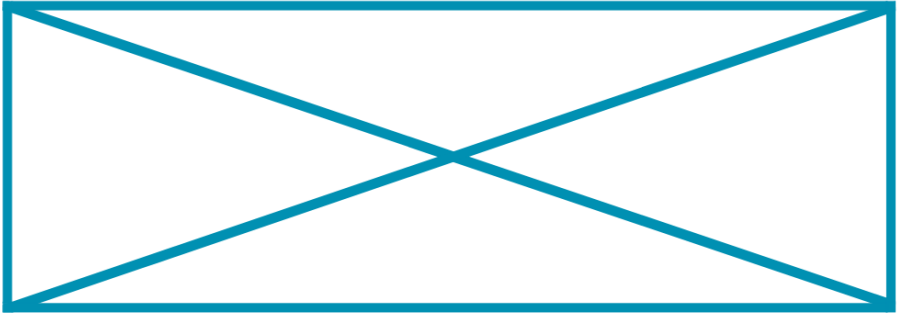

Testing Tools

- Web browsers such as:
 - Google Chrome
 - Mozilla Firefox
 - Microsoft Edge

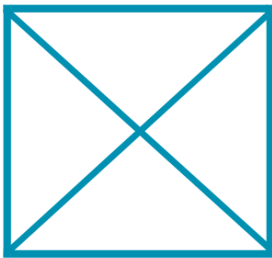

These will be used to test compatibility and performance of the website.
